Balsamic Steak with Red Cabbage and Potato Wedges

In Mimi's house, steak is worth its weight in gold along with horse racing and chocolate. The thing is her whole family loves their steak super rare, or blue as the French say. So much so, that her mum doesn't even really know how to cook a steak well-done! But don't worry, however you like your steak cooked, this recipe will taste sensational.

 35 mins

200ml

Our fruit and veggies may need a little wash before cooking!

Did you know...

Red cabbage contains flavonoids, which are a powerful antioxidant. They are also what give the cabbage its vivid colour!

Allergens: Gluten, Soya, Sulphites, Mustard.

Soy Sauce Ingredients: Water, Soybeans, Wheat, Salt.

2

1 Pre-heat your oven to 200 degrees. Mix the **soy sauce** and **balsamic vinegar** together in a bowl. Add the **steak** to the bowl and make sure it has a good covering of the marinade. Cover and leave until it's time to cook them.

Tip: If you have longer to marinate the steaks that is even better but don't worry if not!

2 Chop the **potatoes** into wedge shaped pieces roughly the width of your index finger. Pull the **rosemary** leaves off their stalks and chop the leaves finely. Put your **potatoes** on a baking tray, drizzle with **olive oil**, add a pinch of **salt**, a good grind of **pepper** and your finely chopped **rosemary**. Give your tray a good toss to make sure your **potatoes** have a thorough coating of **olive oil** and pop your tray in the oven on the top shelf for 30 mins, until your **potatoes** are brown and crispy.

3

3 Cut the **onion** in half through the root, peel and slice it thinly into half moon shapes. Cut out the tough rooty bit of the **cabbage** and slice it into roughly $\frac{1}{2}$ cm slices.

4 Add a splash of **oil** to a saucepan and put it on medium heat. Add your **onion** and cook for 5 mins until soft. Pop the **mustard seeds** in the pan and when they start to pop (after about 20 seconds or so), add your **red cabbage** and cook for a further 5 mins.

4

5 When your **red cabbage** has softened, add the **white wine vinegar**, a sprinkle of **sugar** (if you have some), a pinch of **salt** and a good grind of **pepper**. Stir everything together, put a lid on the pan and cook for 5 mins on low heat. After the 5 mins are up, take the lid off the pan and cook uncovered for an additional 5 mins.

6 Add a splash of **oil** to a frying pan on medium heat and when the pan is hot, add your **steak** (leave the excess marinade in the bowl, you need to use this later!). Cook your **steak** for 3-4 mins on each side and then remove to a board to rest for 3 mins.

Tip: We like our steak medium but if you want it more well done, simply cook it for 2 more mins on each side.

6

7 Add the marinade you left behind to the pan, along with the **redcurrant jelly** and the **water** (as stated in the ingredient list). **Tip:** Use a spoon to break up the jelly so it melts into the sauce. When your sauce has bubbled for 2-3 mins and it's lovely and smooth, take it off the heat.

8 Cut your **steak** into 2cm slices and serve it with a drizzle of **sauce**, your **potato** wedges and a good spoonful of **red cabbage**. Voila!
