Get Prepped

Halve, peel and thinly slice the **onion**. Peel and grate the **garlic** (or use a garlic press). Heat a drizzle of **oil** in a frying pan on high heat. When the **oil** is hot, add the **beef mince** and cook until browned, 5-6 mins. Use a wooden spoon to break it up as it cooks. **TIP: Drain off any excess fat if necessary. IMPORTANT: Wash your hands and equipment after handling raw meat.**

Cook the Rice

Meanwhile, pour the **cold water** for the rice (see ingredients for amount) into a medium saucepan with a tight-fitting lid. Stir in the **rice** and ¼ tsp of **salt**, cover with the lid and bring to the boil on medium-high heat. Once boiling, turn the heat down to its lowest setting. Leave to cook for 10 mins, then remove the pan from the heat (still covered) and leave to the side for another 10 mins, or until ready to serve (the rice will continue to cook in its own steam).

Cook the Onion

Once the **beef** is browned, add the **onion** to the pan, stir together and cook until softened, 4-5 mins, stirring occasionally. Add the **garlic**, **tomato puree** and **rogan josh paste**, stir together and cook for 1 min.

Simmer

Pour in the **water** (see ingredients for amount), **red split lentils** and **beef stock paste**. Season with **salt** and **pepper**, bring to the boil, then turn the heat down to medium and simmer until the **lentils** are tender, 20-25 mins. Stir every few minutes to ensure the **lentils** are not sticking to the bottom of the pan. **IMPORTANT: The beef is cooked when it's no longer pink in the middle.**

Finish Off

Once the **lentils** are tender, add the **spinach** to the **curry** in handfuls and cook until wilted and piping hot, 2-3 mins. Stir in the **mango chutney**. **TIP: Add a splash of water if it's a little dry.** Taste and add **salt** and **pepper** if you feel it needs it.

Serve

Fluff up the **rice** with a fork and spoon into bowls. Top with the **Keema style beef**.

Enjoy!

There may be changes to ingredients in recipes:

Allergens: Always check the packaging of individual products/ingredients for up to date information.

Missing Ingredients: You will be notified by email if an ingredient is missing or replaced, with any potential recipe step changes.
